

KONI STR.T & SPORT SHOCKS AND SUSPENSION KITS FOR 2015+ FORD MUSTANG

Ever since the Ford Mustang debuted over 50 years ago, KONI is excited to announce the addition of the 2015+ Mustang STR.T and Sport struts, shocks and soon to be released suspension kit applications to their long list of Mustang performance suspension offerings.

For tuners interested in added performance at a lowered ride height, KONI will soon offer a complete KONI + H&R Suspension Kit for the 2015+ Mustang. These kits will contain properly matched H&R lowering springs and KONI STR.T or Sport dampers that create the perfect entry level performance package.

		Sport Kit	Kit	1120 8779-1
STR.T Kit	Kit	1140 8779-1		

Kit part numbers are a complete car-set. All other part numbers are per unit.

STR.T

KONI's entry level performance line STR.T (pronounced "Street") shocks and struts bring improved performance and handling as well as KONI quality to the budget minded driving enthusiast enhancing performance at a value price point. The KONI STR.T product line is designed for excellent original equipment (OE) replacement or to complement other suspension modifications, including lowering springs.

SPORT

KONI Sport struts and shocks are the industry leader in externally adjustable damping, establishing the ultimate user control. By easily adjusting between a soft comfortable ride setting to a more firm aggressive ride, KONI Sport transforms the "daily driver" into the weekend track machine without hassle. With its very broad range of adjustability, KONI SPORT is a great choice to upgrade a stock, original equipment (OE) suspension or when matched with lowering springs and other performance upgrades for better handling and a more aggressive look and road feel.

About KONI

As a part of ITT Motion Technologies, KONI develops, manufactures and markets high performance shock absorbers for many types of private and commercial vehicles including street and racing cars, trucks, buses, RVs and military vehicles as well as railway rolling stock. ITT Motion Technologies is the world leader in the development and production of brake pads and friction materials for the transport and automobile industry.
